

# Open Magnet Charter

## K-5 Elementary School

Technology facilitates the educational and curricular objectives of the school. We regularly upgrade computers throughout all clusters.

Parents/guardians actively assist in the classroom, participate in our shared governance by serving on the Governing Board and its committees, and raise substantial funds to support Open School's enrichment and technology programs.

Enrichment programs include: physical education, art, music, and garden/ecology.

Open School consistently receives high API scores.

LAUSD's first magnet school - founded in 1977

First L.A. school to be granted charter status in 1993.

### OPEN MAGNET CHARTER SCHOOL

Open School was founded on parent-teacher collaboration and is governed by a board comprised of parents, teachers, and administrators.

Open School is a one-of-a-kind magnet school based on our Constructivist teaching philosophy.

Open School provides a non-traditional educational environment with a strong emphasis on individualized instruction.

The program includes multi-age learning clusters, team teaching, thematic curriculum, experiential activities, and choices for students.

Recipient of the prestigious California Distinguished School Award and the Magnet School of Merit Award.

Come to one of our Virtual Info Meetings with Q & A to hear more about our school!
