\$120/week PM Only
\$160/week AM&PM (all hours)
\$15 AM one day \$30 PM one day

Innovative Arts Explorations Art Camp / Mr. McBain, Ms. Marya, Coach Jolyene
2 Different Themes, 2 Weeks

Week One, June 12-16: "The Infinite Elements"

We all know that fire is hot and water wet, the Earth is hard and the wind is light. But what if they weren't? In this week of camp we will reimagine a place where the elements have been all mixed up. Maybe water flies and fire is bone-chillingly cold. Maybe the earth is soft and the wind is heavy. If you could live in a world with mixed up elements what would it look like? What would YOU look like? Come create a fantastical world with us as we explore "The Infinite Elements." Students will make costumes, sets, props and more, building and constructing a large-scale walk-through adventure world for family and friends to experience on the last day. (Shadow puppet theater and video making will also be included this week.)

Week Two, June 19-23: "The Artist and the Museum"

Why does some art live in museums and some in the middle of the desert? Could there be art in space? Have you ever walked into a museum and everything was upside down? Does an underwater museum exist? Are there any museums curated by bugs? During this week of camp we will explore these curious spaces in which art does and does not exist. Together we will re-imagine and create a new "museum" filled with beautiful, wacky, and perhaps strange art of different sizes and materials. This camp is for every artist out there who questions the spaces around them and how their art can create new and magical worlds. Get ready to make art installations, working with paint, giant cardboard, found materials, fabric, wood, video, and performance, among many others.

TO SIGN-UP: FILL OUT THIS REGISTRATION FORM (ON BACK) AND SEND IT TO THE ADDRESS PROVIDED.

Registration and Payment will secure your child's spot in camp.
